CLAIM AMENDMENTS:

WE CLAIM:

Claims 1-64 (Cancelled)

65. (Currently Amended) A cleaning pad comprising:

- a. 25 to 84% of a substrate selected from a group consisting of water-insoluble substrates, water-soluble substrates, and water-dispersible substrates, and combinations thereof; and
- b. 16 to 75% of a cleaning composition impregnated in said substrate; wherein said cleaning composition comprises:
 - i. 0 to 60% of an anionic surfactant;
 - ii. 0 to 60% of a nonionic surfactant; and
 - iii. 4 to 60% of a carboxylic acid selected from a group consisting of sulfamic acid, glycolic acid, lactic acid, citric acid, and combinations thereof;
 - iv. ~~2% or more fragrance;~~ and
 - v. 57.5% to 84.5% water;
 - vi. ~~less than 85% water and 57.5% or greater water;~~
- c. wherein said cleaning pad is substantially dry-to-the-touch and after storage for 1 week at room temperature said cleaning pad is substantially dry-to-the-touch and contains no visible liquid on the outside of the pad.

Appl. No. : 10/882,001

66. (Currently Amended) A cleaning pad comprising:

- a. 25 to 84% of a substrate selected from a group consisting of water-insoluble substrates, water-soluble substrates, and water-dispersible substrates, and combinations thereof; and
- b. 16 to 75% of a cleaning composition impregnated in said substrate; wherein said cleaning composition comprises:
 - i. 1 to 60% of an anionic surfactant;
 - ii. 1 to 60% of a nonionic surfactant; and
 - iii. 4 to 60% of a carboxylic acid selected from a group consisting of sulfamic acid, glycolic acid, lactic acid, citric acid, and combinations thereof;
 - iv. ~~2% or more fragrance~~; and
 - v. 57.5% to 84.5% water;
 - vi. ~~less than 85% water and 57.5% or greater water~~;
- c. wherein said cleaning pad is substantially dry-to-the-touch and after storage for 1 week at room temperature said cleaning pad is substantially dry-to-the-touch and contains no visible liquid on the outside of the pad.

67. (New) A cleaning implement comprising:

a. a handle; and

b. a removable cleaning pad comprising:

- i. 25 to 84% of a substrate selected from a group consisting of water-insoluble substrates, water-soluble substrates, and water-dispersible substrates, and combinations thereof; and
- ii. 16 to 75% of a cleaning composition impregnated in said substrate; wherein said cleaning composition comprises:
- iii. 0 to 60% of an anionic surfactant;
- iv. 0 to 60% of a nonionic surfactant; and
- v. 4 to 60% of a carboxylic acid selected from a group consisting of sulfamic acid, glycolic acid, lactic acid, citric acid, and combinations thereof; and
- vi. 57.5% to 84.5% water;

c. wherein said cleaning pad is substantially dry-to-the-touch and after storage of said cleaning pad for 1 week at room temperature said cleaning pad is substantially dry-to-the-touch and contains no visible liquid on the outside of the pad.

68. (New) The cleaning implement of Claim 65, wherein said composition comprises at least 1% anionic surfactant.

69. (New) The cleaning implement of Claim 65, wherein said composition comprises at least 1% nonionic surfactant.

70. (New) The cleaning implement of Claim 65, wherein said composition comprises 0% anionic surfactant.

Appl. No. : 10/882,001
Filed : June 29, 2004

71. (New) The cleaning implement of Claim 65, wherein said cleaning composition additionally comprises greater than about 0.5% fragrance or essential oil.
72. (New) The cleaning implement of Claim 65, wherein said cleaning composition additionally comprises less than about 2% organic solvent.
73. (New) The cleaning implement of Claim 65, wherein said cleaning composition additionally comprises less than about 2% organic solvent having a boiling point less than 100⁰ C at 1 atm pressure.
74. (New) The cleaning implement of Claim 65, wherein said cleaning composition has a pH of about 4 or lower.
75. (New) The cleaning implement of Claim 67, wherein said composition comprises at least 1% anionic surfactant.
76. (New) The cleaning implement of Claim 67, wherein said composition comprises at least 1% nonionic surfactant.
77. (New) The cleaning implement of Claim 67, wherein said composition comprises 0% anionic surfactant.
78. (New) The cleaning implement of Claim 67, wherein said cleaning composition additionally comprises greater than about 0.5% fragrance or essential oil.
79. (New) The cleaning implement of Claim 67, wherein said cleaning composition additionally comprises less than about 2% organic solvent.
80. (New) The cleaning implement of Claim 67, wherein said cleaning composition additionally comprises less than about 2% organic solvent having a boiling point less than 100⁰ C at 1 atm pressure.
81. (New) The cleaning implement of Claim 67, wherein said cleaning composition has a pH of about 4 or lower.
